

OVERVIEW

Model risk assessments (School Operations and School Premises) and supporting guidance on operating procedures has been developed for maintained schools and settings in consultation with our Trade Union colleagues and relevant service areas. Each maintained setting should undertake their own risk assessment following this format – Cumbria County Council, as the employer in the above settings will support and guide Governing Bodies and School Leaders to manage a planned and safe gradual return to school but recognise that local decisions to open or not **MUST** follow a risk based approach appropriate to the resources and capacity of each individual setting. Other types of schools are welcome to use these models to help their own planning and risk assessment approach but must ensure that they prioritise their own employer's health and safety management procedures.

This document is a template to be used to help Governing Bodies and Head teachers develop and tailor a site-specific risk assessment in relation to COVID-19. Below is a list of potential of hazards within our premises and the recommended control measures which apply to the majority of settings to aim to help you manage risks to the lowest possible level. Control shown follow current available guidance and best practice

Head teachers/ Governing Bodies are responsible for monitoring the advice and guidance available, ensuring Risk Assessments and Safe Working Practices are updated where applicable and cascaded through to employees. They must ensure that compliance is monitored and any emerging issues addressed appropriately.

You should refer to the CCC guidance provided to accompany this model as well as referenced national guidance – **PLEASE NOTE:** that your risk assessments should outline **YOUR** agreed control measures following your local planning processes – Any additional control measures you identify are required should be added to the additional controls column, along with who is responsible and a timescale.

All employees working within the premises should receive site specific information on the controls implemented within their workplaces.

Help and Support is available with the development of your risk assessment through The County Council's Corporate Health and Safety Team
healthandsafety@cumbria.gov.uk

Please note that the Local Authority liaising with contractors working on its behalf to ensure that they are undertaking effective liaison with occupiers **BEFORE** attending site – Contractors asked to provide key information in relation to how they are managing infection control.

This risk assessment refers to current national guidance and is listed at the end of this document and within accompanying guidance

				premises risk assessment.	
				No children in school who require PPE.	
Assessment Conclusion	Providing the stated control measures are implemented and adhered to the risk of contracting most viral infections can reduce to a manageable level in normal circumstances. Compliance with this risk assessment should be monitored and reviewed to ensure control measures remain effective.
