

Art and Design Enrichment at Lanercost

In Art we provide opportunities for every pupil to develop their potential to the maximum in a learning environment that is both challenging and enjoyable.

Art Club is held weekly by Abby the artist and provides a valuable space where pupils can continue with class projects or develop their own individual projects using a range of 2D and 3D materials.

In addition to Art Club, there are a number of other clubs which run throughout the year to develop children's creative and artistic talents. These have included drawing club, colouring club, creative book club, sewing club and many others.

Throughout the year, pupils are able to display work in themed exhibitions held around the school, where parents and other pupils are invited to engage and reflect upon their ideas. In addition to this, pupils' artworks are regularly published on our social media platforms which gives the wider school community an up to date view of the progress within the school.

Throughout the year, children are also involved in a number of additional cross-curricular activities including; practical workshops (e.g. KAH ceramics), Mosaics for our adopted train station, House competitions, visiting art galleries and many other opportunities.
