

## Music Enrichment at Lanercost

Music Beyond the Curriculum: We provide a comprehensive, challenging and exciting musical education to all pupils, catering for all ranges of ability, from those taking music lessons for the first time to those who show exceptional talent.

Music Club at Lanercost is an exciting opportunity for children to explore their creative and musical talents. Children are given opportunities to explore a range of instruments, as well as bring in their own instruments from home, and compose and perform their own musical creations. These sessions allow children to look beyond the skills taught within our curriculum lessons and allow children to develop as unique musicians.

Singing club is offered to children to boost their confidence and singing skill. Children have opportunities to sing a range of musical genres and then perform these within small ensemble performances as well as within Lanercost Priory.

Children at Lanercost also have an opportunity to take part in the Carlisle Cathedral School's Outreach program. Through a number of sessions lead by a specialist choir master, children learn a range of songs which they then perform in two magical evenings of entertainment. This experience is an incredible opportunity for children to begin to feel what it is like to be a performer, prepare for a paid performance and perform in front of friends and family... and the general public.

In addition to the instrument sessions they have in KS2, we also offer peripatetic guitar lessons which are available to all children from Year 1 upwards. Children love learning a range of songs and joining in with the singing and guitar playing they develop.
